

Foreword

It is with great pleasure that I extend a warm welcome to everyone involved in the second Bulldog Rally.

Following the achievements of the 1995 rally when our Company supported the event for the first time on its successful return to the premier National Rally Series we are delighted to renew the links for 1996.

At Bulldog we are all rally fans and it is particularly pleasing to be able to combine our business, of the manufacture of vehicle and leisure security products, with our love of The Sport.

The addition of the Bulldog Historic Rally to the format of the 1996 event is especially interesting as classic cars are another of our interests!

Everyone is anticipating another exciting day's rallying in October organised to the usual professional standards by Wolverhampton and South Staffs Car Club.

We look forward to seeing you all in Aberystwyth and wish competitors, officials and spectators a successful rally.

I Jordan.

4. The rally consists of Special Stages and Road Sections.
5. Lateness in excess of Target Time on Road Sections and Special Stages is cumulative. Once a Competitors' cumulative lateness calculated from the previous Main Control exceeds the penalty free maximum of 15 minutes, (K34.1.1(e) - amended) the Competitor will be EXCLUDED from the results.
6. To be classified as a finisher a crew must report, with their car, at all controls within their permitted lateness (Article 15.5).
7. It is the Competitor's responsibility to ensure that his times are correctly recorded and handed in when and where instructed. Should any recorded time not be legible or not appear authentic the Organisers may use any means at their disposal to establish a time.
8. Control and Stage Signs will conform with K15.5.
- 9.(a) Special Stage timing will be to the previous whole second.
(b) Each Special Stage will have a Bogey Time set at 65 mph for unsealed surfaces or 75 mph for sealed surfaces and a Target Time set at approximately 30 mph (less on short stages) this will be indicated in the Road Book and/or the Time Cards and/or Competitor Bulletins.
(c) Competitors will receive penalties on Special Stages as follows :-

(i) Under Bogey	Bogey Time
(ii) Over Bogey under Target	Actual Time Taken
(iii) Over Target	Target Time

Time in excess of Target Time on a Special Stage will count towards the competitor's Cumulative Lateness (Article 15.5).
(d) Competitors must be ready to start a Special Stage when required to do so by the Start Marshal.
- 10.(a) Road Timing will be to the previous whole minute.
(b) Each Road section will be allotted a Target Time based on approximately 28 mph average or less and Competitors can calculate their Due Time of arrival at any Time Control (TC) by adding this Target Time to their recorded time of departure from the preceding TC. On Road Sections following a Special Stage, extra time may be included to allow for any delays at the Special Stage Finish.
(c) At all TC's on Road Sections (i.e. MC's, SSA's and SV's; see Article 15.11), Competitors who are early may wait for their Due Time outside the Control (K35.2 and K35.2.1). The time recorded at these TC's shall be the time on the official clock and both crew submits the Time Card to the Official, provided that car and both crew members are within the Control Area. Once a Competitor's car enters the Control Area the crew must submit their Time Card to the Official within one minute; (i.e. a Competitor's car may enter the Control Area up to 59 seconds before their Due Time, without incurring a penalty for early arrival).
11. Time Control. All controls other than Passage Controls (PC's) and Route Checks (RC's) will be Time Controls (TC's). The following titles shall describe the various types of Time Control :

- (a) Main Control (MC)
 - (i) The MC at the start and MC's after any Rest Halt, or at any other specified point, will be designated as MC(OUT).
 - (ii) The MC at the finish of the rally and MC's before any Rest Halt, or at any other specified point, will be designated as MC(IN).
 - (iii) At an MC(OUT) after a Rest Halt, Competitors will restart at one-minute intervals either in number order or in order of their arrival at the MC(IN) or as may be specified in an Official Bulletin.
 - (iv) Competitors shall be given a due starting time from any MC(OUT); the difference between this time and their actual starting time will be counted towards exclusion for cumulative lateness. Also a time penalty will be applied.
 - (v) Competitors arriving at any MC(IN) within their maximum permitted lateness will, subject to Article 15.11(a(iv)) above, restart from the MC(OUT) with Zero lateness. i.e. lateness is accumulated only between two successive MC's.
 - (b) Special Stage Arrival Control (SSA)

On arrival at an SSA Competitors will receive a time only when ready to start the Stage (Helmets and Safety Belts on etc.). On clocking into the SSA they must proceed immediately to the Start Control.
 - (c) Special Stage Start Control (SSS)
 - (i) At the SSS Competitors will be given a Start Time for the Stage in hours and minutes and (if Competitors are to start at 30-second intervals) seconds. Once Competitors have clocked in at an SSA, the Start Marshal will assume that they are ready to start the Stage and will issue a Start Time as soon as the Start Line is clear, whether the Competitor is ready or not.
 - (ii) The starting signal will be given in accordance with K38.8. Except that on stages where competitors are started at 30 second intervals the verbal indication of "30 seconds to go" will be dispensed with.
As each section is timed separately, the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for.
 - (iii) As each section is timed separately, the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for.
 - (iv) The area between SSA and SSS is 'Parc Ferme'.
 - (d) Special Stage Finish Control (SSF)
 - (i) At the SSF Competitors will be given their Finish Time in hours, minutes and seconds. This time in hours and minutes constitutes their Start Time for the following Road Section.
 - (ii) Any Competitor who fails to stop at the Stop line must return to the SSF on foot; reversing the car is prohibited and subject to the Penalty of EXCLUSION (K38.6.1 and K39.1(v)).
 - (e) Service Control (SV)
 - (i) All Service Areas will have IN and OUT Time Controls. At Service Areas not designated as MC's a Target Time will be specified between these controls. The Section between SV(IN) and SV(OUT) will be marked as a Road Section.
- 12 Other Controls. The following titles shall describe the types of control other than Time Controls:
- (a) Passage Controls (PC)
 - (i) At any point indicated in the Road Book, the Organisers may establish a PC in order to collect Time Cards from Competitors or for other purposes. A Competitor failing to provide the necessary documents at any PC will be deemed not to have reported there and will be EXCLUDED (K39.1(a), Article 15.6 & 15.7).
 - (ii) Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book and not to calculate Cumulative Lateness.
 - (b) Route Check (RC)

The Organisers may also establish checks along the route in accordance with K30.5.

Article 16. Pace / Route Notes

1. Unauthorised pre-event practising or testing over Special Stages on this event is forbidden (K38.9.1).

2. Each Service or Management Vehicle must be registered with the Organisers, giving its vehicle registration number, before an official Plate is issued for it. The use of a Service or Management plate on a vehicle not previously registered with the Organisers is an offence for which a penalty up to EXCLUSION may be applied.

3. There will be Service Areas at strategic points where work may be carried out by the Service Crew on the competing car. These will only be accessible to Competitors and Service or Management Vehicles bearing Official Plates. No other areas may be used by Service Vehicles, which are required to follow a prescribed route to the Service Areas. All other areas will be Out of Bounds to Service Crews and Vehicles.
4. Emergency servicing will be permitted in designated areas after some Special Stages, from Management Vehicles displaying the appropriate Management Plate. These plates may only be used on conventional saloon cars or estate car derivatives, or certain 4x4 off-road leisure vehicles, subject to approval by the Organisers. The use of roof racks is not permitted. These vehicles must follow the route supplied by the Organisers in the Management Vehicle Pack, which will specify sections of the rally route which are Out of Bounds to Management Vehicles. Application for Management Packs must be made on the Official Entry Form (see Article 8.8). The Organisers reserve the right to restrict or refuse any application for additional packs.
5. Competitors may work unassisted on their own cars in 'No Service Areas' except :-
 - (i) within 100 metres of any Control
 - (ii) between the Special Stage Arrival and the Special Stage Start Controls, and

The only work permitted in these areas is, with the permission of an event Official, to carry out the following unassisted :-

 - (a) Replace a wheel with a flat tyre by a wheel and tyre carried in the competing car.
 - (b) Clean lamp glasses, windscreen, windows, competition numbers and number plates.
6. Service Crews and Management Personnel are subject to the same regulations as Competitors regarding noise, bad driving manners, etc. Officials and Marshals have been instructed to note any infringement of these rules (Article 14).
7. Competitors are responsible for ensuring that their Service Crews and Management Personnel understand and comply with these regulations and that their Service Vehicle(s) and Management Vehicle(s) bear an Official Plate showing the Competitor's Rally Number. This plate must be FIXED to the front of each Service or Management Vehicle and be clearly visible at all times.
8. A Competitor receiving assistance contrary to these SR's will be penalised in accordance with K39.1(u), subject to the following modifications: any Competitor whose Service or Management Vehicle is *observed* in an Out of Bounds area will be penalised 10 minutes for the first offence and by EXCLUSION from the results for the second offence; any Competitor *receiving assistance* from a Service or Management Vehicle in an Out of Bounds area will be EXCLUDED on the **first offence**.

Article 18. Penalties

1. Competitors will start with zero penalties. Classification for the results will be determined by total time penalties, the winner being the Competitor with the least total time penalty (Article 15).
2. In the event of a tie, the winner will be the Competitor who has completed the greatest distance from the start with least Stage Penalties.
3. The penalties in K39.1 apply unless specifically modified in these SR's.
- 4(a) Causing a decibel meter reading of greater than the specified limits will be deemed excessive noise. This will be measured in accordance with a test specification detailed in the RAC MSA General Regulations. It is at the discretion of an Environmental Scrutineer, a Driving Standards Observer or of the Organisers, whether a car which causes excessive noise is refused permission to proceed/or EXCLUDED at any time (K6.1, K6.1.2).
- (b) A Driving Standards Observer's decisions on imposing a penalty for excess speed or bringing the sport into disrepute shall also be reported to the Stewards of the Meeting (K39.1(r)).

Should any Special Stage be cancelled during the event, or deleted from the results after the event, only the Stage penalties will be deleted. Unless an Official Bulletin has been issued to the contrary, the cancelled stage must be traversed within Target Time and will in every other respect be treated as a Road Section.
6. Causing an obstruction on an access road to or from a Special Stage will be penalised by EXCLUSION from the results.
