INTRODUCTION:

Welcome to the 1998 Bulldog Rally, the seventh and final round of this year's Mintex National Rally Championship.

This year's event is also a round of the Ford Rally Ka Championship, the Nissan Micra Challenge, as well as the Allways Executive Travel Welsh National Rally Championship, Evans Windows Welsh Clubmans Forestry Stage Championship.

Run in association with the Bulldog Rally, but over a slightly shorter route, is the Bulldog Historic Rally, which is the last round of the Motoring News / Demon Tweaks Historic Rally Championship.

There is also the Meirion Clubmans rally running over the last 5 of the Bulldog Rally stages.

Special entries this year are the young Flying Finn Jarmo Kytölehto in the new works Astra and Icelandic star Runar Johnsson who is tackling his first British event.

Late entries for the Bulldog Rally and hence running with unfamiliar numbers on the doors will be Alistair McRae in a Prodrive Subaru, David Higgins in his Barratts Subaru and Chris Mellors in one of his own World Rally Escorts.

Press coverage is a very important part of any rally, for the organisers, competitors - along with their associated sponsors - and I hope all the information you require is contained within this press book. If you have any additional queries, the press office will be staffed by myself and Mintex series Press Officer Keith McGhie and we will do everything possible to help you.

We trust you enjoy a good day's sport, but please remember, events such as the Bulldog Rally rely heavily on the goodwill and support of the local population. So please respect the countryside and its inhabitants at all times.

About the Sponsors

Bulldog Security Products Limited is part of an expanding group of companies which has its headquarters in Much Wenlock, Shropshire.

Bulldog International Limited has a developing global network of agents and representatives.

The Bulldog pedigree

The first products were launched in the mid 1980's, the result of the painstaking development of an innovative locking bolt mechanism by the company founder Ray Jordan.

The unique, hardened, anti-pick bolt was a breakthrough in low-cost, high specification security that the company has been able to apply across a wide range of products and application sectors, identifying and responding quickly to actual user needs.

A consistent policy of upgrading has enabled the locking bolt based products to maintain market leadership in so many areas, while the company's R & D team has engaged in the parallel development of other complimentary products and systems aimed at securing a safer world.

The Bulldog breed

Leisure - Bulldog became a major player in the caravan sector in particular, and the leisure market in general. It's a 'moving' story of stabiliser safety through to stationary security and safety provided by products from wheel clamps to hitch locks, lock posts to levellers.

Automotive - Bulldog has dedicated itself to providing the most comprehensive range of wheel clamps available from a single manufacturer, offering degrees of security from snap-on deterrents to highly secure heavy duty options. Devices are available for classic cars through to motorcycles, at prices to suit all budgets.

Household Security - Bulldog is nothing if not house 'trained', providing lock bolts to secure garage and personal access doors - however poor the integral door locking system - car posts and clamps . . . and even sporting gun security.

Shop Protection - Bulldog is taking on the ram raiders with barriers offering high impact resistance at low cost and the flexibility of placement to satisfy local planning regulations. The retailer is also able to call upon Bulldog for extra access door security and access control devices.

Fleet Protection - Bulldog protects cars, vans, trucks and trailers. The range extends from clamps to a unique King Pin Lock which enables drivers and owners of heavy goods trailers to throw a security 'ring' around them in seconds - whenever they are detached or parked.

Animal Safety - Bulldog helps ensure the safe transportation and containment of animals, particularly horses, with the development of such products as stabilisers designed specifically for horse and animal trailers and a professional quality door lock bolt which can be used to ensure that thieves are kept out . . . and the animal stays in.

Site Management - Bulldog products have been developed for access control on permanent and temporary sites from company and public car parks to construction complexes, as well as individual vehicle and plant protection. Ram barriers and lock posts are among the access control equipment available.

HISTORY of the BULLDOG RALLY

The Wolverhampton and South Staffs organised Bulldog Rally started life in 1958 as a night navigation road rally sponsored by the local newspaper The Express & Star. The event was renowned for its demanding route over the infamous roads of mid-Wales. Evocative names of sections like The Bwlch-y-Groes, Dinas, Lake Vyrnwy and The Mynd revive memories of the Austin A35s Sprites, Mini Coopers, Morgans and Anglias that were driven by the winners.

It was in the mid-Wales hills that held forest roads which in 1967 were the impetus in making the event one of the first special stage rallies on the mainland of Britain. Still called The Express and Star, this was the era when first Cortinas then Escorts and Chevettes were the winning cars.

When the oil company became the event sponsor in 1968 the rally was renamed 'The Castrol'. With the relocation of the start and finish to Aberystwyth in 1975 the scene was set for the sequence of quintessential single day forest stage rallies. The many of the winners of those days were visitors from World Championship Rallies included Russell Brookes, Pentti Airikkala and Ari Vatanen.

With Castrol's withdrawal from motorsport in 1980 the event was sponsored by Pace Petroleum for two years. Remarkably for a national event the winners for these years were Henri Toivonen and then Markku Alen. It was on this event that the latter gave the unforgettable Lancia 037 its first win anywhere in the world.

Audi Sport took over the sponsorship of the event in 1983 and it was known as 'The Audi' for the next nine years, for the last four of these it gained full international status. The long association with the German car manufacturer attracted more illustrious names to the finishing ramp. These were the years of the four wheeled drive rally cars pioneered by Audi themselves. Although Michele Mouton and Stig Blomqvist won in Audi Quattros there were also wins for Tony Pond in a Metro 6R4 and David Llewellyn in a Toyota GT4.

Since 1993 the event has run under the name Midland Rally still attracting the 'works' drivers preparing for next month's Network Q RAC rally. Gegoire De Mevius the then Group N World Champion competed against Malcolm Wilson in 1993, with Malcolm emerging the winner. In 1994 Malcolm returned but this time he was up against François Delecour in an identical Escort Cosworth. Once again Malcolm won.

For 1995 the event was fortunate to find yet another enthusiastic sponsor in Bulldog Security Products for its debut into the Mintex Rally Series. The event and Series were won by Chris Mellors with a memorable garlanding ceremony on Aberystwyth sea front.

In 1996 the format has been retained but further innovations have been incorporated. The most significant being the first running of the Bulldog Historic Rally in front of the main event.

In 1997 the event was, once again based in Aberystwyth with a spectacular super special stage being run in The Sweet Lamb rally complex nearby. The event was notable for the introduction of route notes supplied by the organisers for the first time.
