STAGE ARROWING SYSTEM

Positioning of Arrows at JUNCTIONS in conjunction with 'No Entry' Boards.

It should be noted that the gate formed by two arrows is always set immediately before the junction in the approach road and to avoid ambiguity, where necessary, the angle of directional change will be exaggerated. Incorrect roads will have 'No Entry' boards and will be blocked but not necessarily at the junction.

NB

There will always be a confirmatory arrow not more than 25 yards after every junction on the correct road. Similarly, there will always be a 'No Entry' sign not more than 25 yards after every junction on the incorrect roads.

PROCEDURE AT CONTROLS.

The procedure at controls is generally as described in the Regulations and Final Instructions.

At MC1 competitors will depart at 1 minute intervals, the first car due departure time being 08.00.

In order to take full advantage of the target timing system, the entry list will be closed up to take account of non-starters. The revised list of start times will be posted on the Official Rally Notice Board following the closure of documentation.

Time Cards

There will be 3 time cards : -

- A MC1 to MC2 incorporating Special Stages 1 and 2
- B MC2 to MC3 incorporating Service Area A, and Special Stages 3 to 6
- C MC3 to MC4 incorporating Service Area B, and Special Stages 7 and 8

Main Controls

The maximum lateness between Main Controls is 20 minutes.

Competitors who leave Main Controls at their due time will have zero lateness.
