FORWARD

SAFETY

An ambulance, doctor and recovery vehicle are available on all stages.

Radio communication equipment is sited at all stage starts and finishes as well as points along the route through the forest. Should you be forced to stop for any reason on a special stage you must display your 'OK' board to following competitors or if, and only if, you require immediate medical assistance you should display your RED CROSS. Try and make your competition number visible to following cars. Put out your RED TRIANGLE to warn competitors and protect your own car.

When you come across a competitor stopped on a stage confirm that human life is not in danger and that a RED CROSS is not being shown. Note the location of the car in relation to the numbered junctions and its competition number and report the facts to the stage finish crew.

Remember that it may be you who next require assistance.

The Organisers will attempt to link 'lost' crews with their service personnel with the help of the safety radio network if practicable when the relevant stage has closed.

A recovery vehicle will pass through each special stage to extricate competitors from immediate difficulties after the stage has been shut by the course closing car.

Stage 2 will not be cleared until final closure after being reused as stage 9.

HAZARDS

Certain Fire-Breaks and other known hazards will be numbered as junctions in the Road Book and arrowed on the stage.

As the hazards due to logs in the forest are changing day by day they cannot be marked in the road book. Any hazards that are found on the day prior to the event will be displayed on the official notice board. Also, the marshals at stage starts will inform competitors of particularly dangerous locations and these will be indicated by exclamation marks on the stages.

Petrol

Garages with petrol available along the route of the rally have been noted in the Road Book and time has been allowed in the time schedule for competitors to fill up as necessary.

A breakdown of rally mileages is given in the servicing information.

Other Information

If you retire, please inform Rally Headquarters at the TELFORD MOAT HOUSE HOTEL (0952 291291) as soon as possible. You must submit your damage declaration to the organisers, via the nearest time control convenient, or at Rally HQ in accordance with L4.10.2.

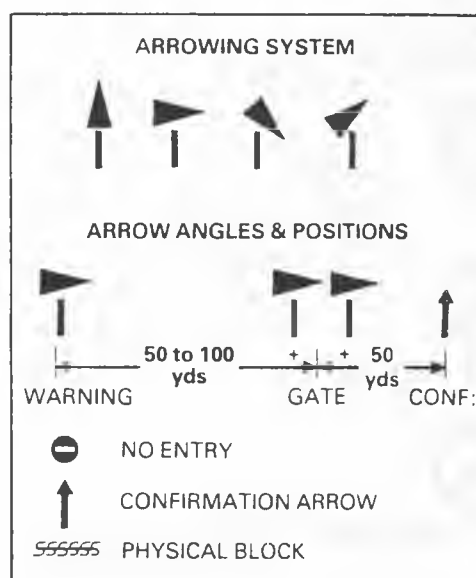

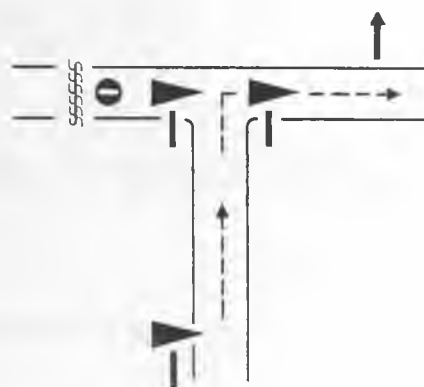

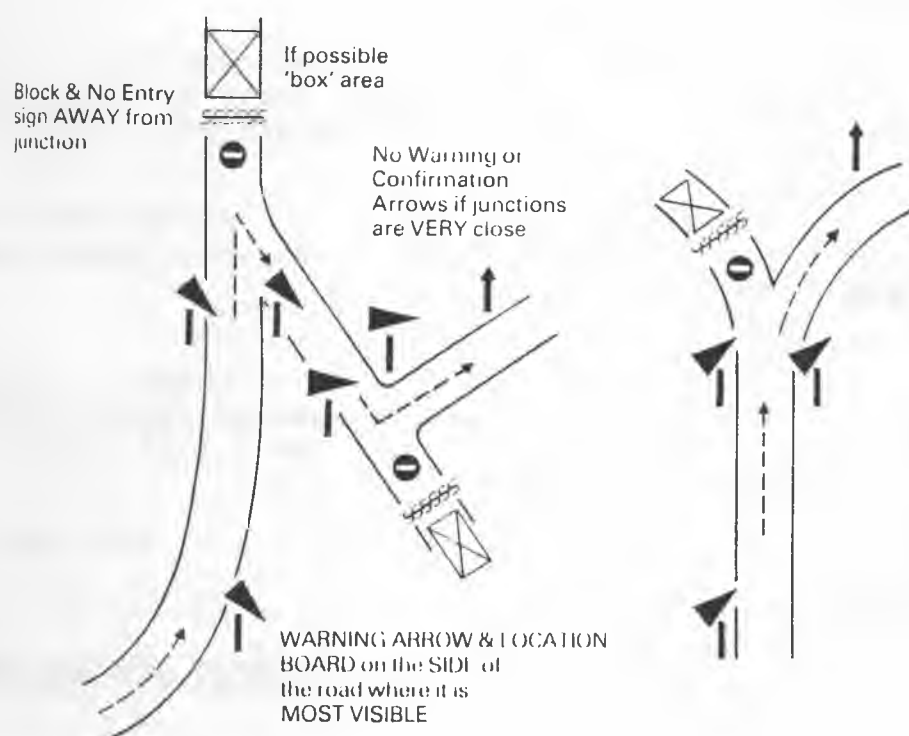

There is a results query slip at the rear of this book.

A record sheet for you to keep a check on other competitors times is also at the rear of the book.

STAGE ARROWING SYSTEM

Positioning of Arrows at JUNCTIONS in conjunction with 'No Entry' Boards.

It should be noted that the gate formed by two arrows is always set immediately before the junction on the approach road and to avoid ambiguity, where necessary, the angle of directional change will be exaggerated. Incorrect roads will have 'No Entry' boards and will be blocked but not necessarily at the junction.

Time Cards will be issued here and there will be a schedule of start times on display in the assembly area. The organisers intend to close up the entry list to take account of non-starters.

At MC1 competitors will be despatched at one minute intervals, the first car's due departure time being 08.00 hours 22nd October 1988.

TOWN PARK SPECIAL STAGE

This stage is promoted to gain publicity for competitors, their sponsors and for the Rally's Sponsors. Last year there were over 6000 spectators at this venue and the event was won on the times over this stage. Please treat it with respect.

FINISH

The finish of the event is at the TELFORD MOAT HOUSE HOTEL, although MC2 is at the exit of Town Park. There is a PARK FERME following MC2. Vehicles may only be removed from or worked on in this area on the written instruction of the Clerk of the Course.

After MC2 certain competitors will be required for post event scrutiny. Also, selected crews and their vehicles will be required to attend a 'publicity finish' of the event at the Moat House. These crews will be informed at MC2 and instructions issued.

The results of the event will be on display on the official notice board in the Moat House Hotel.

THE 'TULIP' ROAD BOOK

INTRODUCTION

The Road book describes the route for the whole rally, including Special Stages, by 'tulip' diagrams.

Junctions on road sections where the route is obvious have not been included on the 'tulip'. Competitors should simply continue on the road on which they are travelling.

The names quoted as appearing on a signpost were those present at the time of survey and cannot be guaranteed.

All speed limits and 'Give Way' junctions have been shown. Please observe them, as the Police know you are coming.

Please drive carefully and quietly on Public roads, especially near to forests as they are narrow and there are local residents who will be using them.

The 'tulip' mileages are only as accurate as your trip meter and so we recommend that the route be plotted using the references provided, and that used as your main guide between stages.

On Special Stages the advanced warning arrow on each hazard or junction will bear the same number as the corresponding 'tulip' in the road book.
